

December 13, 2021

To our fellow BHI shareholders,

We have been receiving many apprehensive calls from our shareholders about when our shares of stock shall trade again.

Hiatus. The BHI trading shall resume upon the submission of the SEC Form 17-A for the fiscal year ended May 31, 2021 and subsequent SEC Form 17-Q reports subject to evaluation and BHI's compliance of reportorial requirements to the PSE and SEC. In fact and in truth, our 2021 is nearly complete and ready, but our auditor has implemented a delay, because the Government recently wished to also review 2020 statements. The reason for this very cautionary state is that Alas Oplas Co. & CPAs have been chosen by the SEC Oversight Assurance Review (SOAR) Inspection Program, which is effectively a quality assurance audit by the Government over our own auditor. The SOAR Inspection Program (SEC MC No. 09 s.2017) is used by the Government only on audit firms handling publicly listed companies to render on-site review of quality control policies & procedures. The SOAR was completed Nov 26, 2021 but they await the official report end of December. An inflection point that will also cause delay is that the auditor has newly acquired audit software called *CaseWare* which they deployed for our 2021 statements.

Since we have been advised by the auditor above that it shall complete its tasks latest end January, we foresee that the Company's submission of the PSE and SEC reportorial requirements by early February. Rest assured the company's assets & investments are sound and intact, in the most riskless state possible without bank debt or tax claims.

Taking Full Responsibility & Wishing You Well in the Holidays,

JOSE MARCEL PANLILIO
President/Chairman & CEO
